Problem

Each macerator blockage can cost £100's in call out and repair fees

As the popularity of personal care wipes continues to increase, so does the volume of inappropriate wipes being disposed of in macerators and down toilets. Lack of education and training results in inappropriate wipe disposal, which can have significant repercussions.

The nationwide cost of unblocking the sewers maintained by the water and sewerage companies is £88 million a year.¹

Unlike toilet paper, most wipes do not disintegrate easily when flushed as they are designed to be strong in-use and keep their structure when wet, usually containing high levels of plastic. It is thought that non-flushable wipes are now the cause of 93% of blockages of UK sewers,² cited as a contributing factor to the growing 'fatberg' epidemic.³

Remember to check the pack – All Senset Wipes are clearly labelled with disposal guidance.

The Solution

Our Senset Personal Hygiene Range provides a time-saving solution for continence care and everyday personal cleansing; with the added convenience of quick, safe and hygienic disposal in either a toilet or macerator.

The full wipes range is manufactured using cellulose wood pulp, providing healthcare professionals with a more environmentally friendly alternative.

Senset Maceratable Wet Wipes

As well as being maceratable, our Senset Wet Wipes are now fully flushable and dispersible, passing the latest EDANA GD4 tests.⁴

Pre-impregnated with skin cleansers and moisturisers, the wipes offer convenient full-body cleansing, helping to keep skin feeling clean and refreshed.

- ✓ **Maceratable AND Flushable**
- ✓ Suitable for full-body cleansing, including continence care
- ✓ Dermatologically tested, PH balanced, alcohol and lanolin-free
- ✓ New larger, thicker wipes available in a variety of pack sizes

100% PLASTIC FREE

Contains preservative-boosting natural organic acids

Senset Maceratable Dry Wipes

The material used within Senset Dry wipes is independently proven to be significantly more absorbent than other brands,⁵ and has been shown in trials to reduce wipe usage by up to 43%⁶

- Wipes lather well with soap and remains durable, even when wet
- Gentle enough to use on fragile and sensitive skin, ideal for continence care
- Easy single wipe dispensing to prevent over-usage and control costs

More absorbent than other brands⁵

Reduces wipe usage by up to 43%⁶

Senset Skin Cleansing Foam

Senset Skin Cleansing Foam provides a convenient gentle and effective cleansing system for continence care. Ideal for use with bariatric patients or patients with urinary and/or faecal incontinence, Senset gently lifts soiling, whilst cleansing, restoring and moisturising the skin.

Use Senset Skin Cleansing Foam alongside Senset Dry Wipes for a full maceratable, personal cleansing solution.
